

Dahle 20835EC High Security Shredder

NSA/CSS O2-01 Approved

20835EC

In order to protect our National Security, military and government agencies require higher levels of security from their paper shredders. This Dahle High Security Shredder is NSA approved for **NSA/CSS Specification 02-01**.

Known for its power and waste capacity, this Dahle Department Shredder provides a practical solution for accommodating the shredding needs of even the busiest offices. Its attractive design and large waste bin make this a nice addition to any large office, copy room or communications center.

The Dahle 20835EC features a 16" feed opening to easily accommodate letter, legal and wide computer paper. It has a maximum shred capacity of up to 12 sheets* at a time and features an

oversized waste bin capable of holding 35 gallons of shredded material.

A solid steel frame houses and aligns two perfectly matched cutting cylinders milled from a single bar of German Solingen steel. It's this design that maximizes durability and minimizes flexing to produce a consistently fine 1mm x 4.7mm particle size.

This Dahle High Security Shredder is a serious machine capable of reducing a single sheet of paper into over 15,500 tiny particles. These particles are so small that they have been rendered impossible to reassemble. In a world of uncertainty one thing's for certain, whatever you put through these shredders, we guarantee will never be seen again.

Shred Size - 1mm x 4.7mm

Capacity - Up to 12 sheets*

Security Level - 6

Max Hp - 2 Hp

Full Automatic Features

Shredder Performance Kit Available

Dahle High Security cutting cylinders reduce a sheet of paper to over 15,500 pieces.

Chain-driven cutting mechanism provides slip free power for maximum throughput.
