INTIMUS HDD GLADIATOR

HARD DRIVE SHREDDER

- ▶ Automatic reverse when overloading
- ▶ Split Shredding Chamber for Multi Media optimization

HIGH PERFORMANCE SHREDDER FOR OPTICAL AND MAGNETIC MEDIA

In the intimus® hard drive shredder, the disks are broken into tiny parts. The powerful machine is fast and reliable. This product is suitable for various applications and fulfills the demands of security level H-4 according to DIN 66399. The shredding of the hard drive is a safe and economical destruction process, with the possibility of a simple and visual inspection of the successful destruction.

FEATURES

- High Performance shredder for optical and magnetic media
- Continuous manual material feed
- Clear, robust buttons for On/Off and Reverse
- Specially hardened blades
- Maximum operator's safety
- Lockable master switch
- All doors and covers secured with safety switches
- Shredded material collected in 120l standard waste bin

SPECIFICATIONS

Media Throughput per hour	up to 500*
Also shreds:	
Security level DIN 66399	0-2 / T-2 / H-4+ / E-2
Workingwidth chamber 1	145 mm
Workingwidth chamber 2	135 mm
Motor power	3,5 kW
Fusing	8 A
Noise level	66 dB (A)
Dimensions WxDxH	1042 x 840 x 1679 mm
Weight	540 kg

* depending on the type of material mix
* inner HDD parts

SECURITY LEVELS ACCORDING TO DIN66399

Inner HDD parts: H-4

Outer HDD metal housing parts: H-4

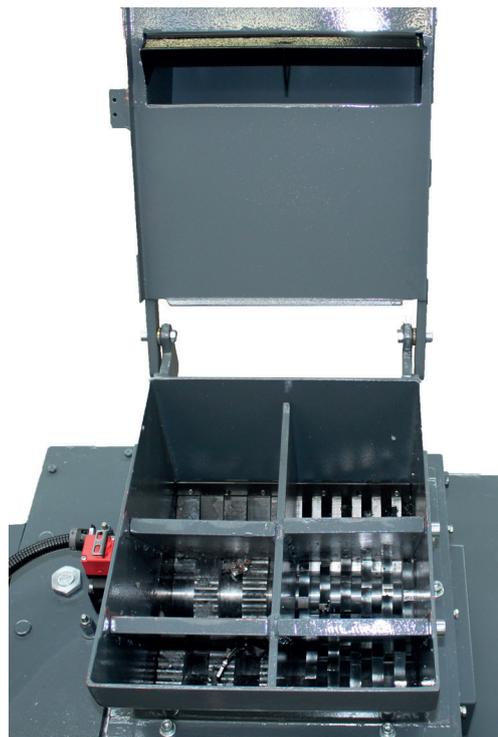

DUAL INPUT HOPPER

To Ensure maximum throughput:

HDD's will be fed in the left hopper that uses 30 mm special designed blades for HDD.

The right hand hopper is used for optical media, SSD, VHS, Tape drives etc...

This makes use of 12 mm special designed blades for light weight media.

SSDs: E-2

CDs: 0-2

Credit cards: T-2

Floppy discs: T-2

VHS & computer tape drives: T-2
