

# intimus 16.86 Heavy Duty Shredder/Baler Combination

For decades, the intimus® heavy duty shredders have proven to be centrally positioned pieces of equipment for the privacy-friendly disposal of disused media. The model range offers variations that can handle up to 550 sheets/h or even complete folders in a single operation. The spacious feed table with integrated infeed conveyor belt provides controlled, effortless, safe and fast loading. The shredded material is collected in large-scale, mobile or swing-out containers under the cutting mechanism. The shred-press combinations are coupled to a baler for immediate fully automatic compaction of the cut material into compact bales.

W/D/H 283/342 x 120 x 155 cm

Reduction effect compared to the loose collection of the cuttings is about 70%.

- The useful supplement to the large document shredder: shredded material is automatically compressed into compact bales
- Shredder features see Model 16.50 S
- Electronic compacting chamber level monitoring
- Shredder loading can be continued while baler is compressing the material
- Pushbutton control for bale ejection
- Alternative of bale ejection into plastic sack for clean, dust-free transport and weatherproof packaging
- Shredder and baler operate in tandem
- Compressing stroke is triggered automatically
