

Standard Features:

- Belt-Feed Industrial Shredding System: Designed to shred entire files, stacks of computer forms, cardboard, tapes, ribbons, CDs and magnetic disks
- LED Control Panel: Integrated digital load indicator and sensors
- Front Waste Bin Access: Front cabinet door allows the shredder to be placed against a wall to maximize space savings
- Auto Start/Stop Mode: Optical sensor detects paper and starts operation automatically
- Manual Mode: Shredder operates continuously for shredding small sized paper or films
- Door Safety Sensor: Motor stops automatically if cabinet door is opened
- Auto Reverse: In case of paper jam, built-in controls switch motor into reverse to clear jam
- EvenFlow™ Automatic Internal Oiling System: Lubricates cutting blades for optimal performance
- Continuous-Duty Motor for non-stop operation
- Waste Bin Full Sensor: When the waste bin is full the motor stops automatically
- Auto Cleaning: Allows the motor to run in reverse for one minute to clear shred particles
- Self-Diagnosis System: Provides a variety of operational data with optional diagnostic reader
- Heat-Treated Solid-Steel Cutters: Specially ground for longevity and require minimal oiling
- Large Safety Bar to stop operation
- Mobile Waste Bin on casters
- Thermal Overload Protection
- Safety Circuit Breaker: Ensures safe operation
- Safety Key and Lock: Provides maximum control of the shredder

Options:

- Additional Waste Bin on casters

Warranty:

- Lifetime Limited Warranty on cutting head
- 1-Year Warranty on all other parts

Commercial-grade power for large volume shredding

The Formax FD 8804SC is one of the most advanced high volume industrial shredders available. This high-capacity conveyor-fed shredder combines fully-automated features with the rugged, industrial strength needed for high volume centralized shredding.

Standard features include an LED control panel with load indicator and user-friendly features such as Auto Start/Stop, Auto Reverse, and Auto Cleaning while providing enough power to shred up to 125* sheets of paper in a single pass. Its rugged molded plastic waste bin has casters for easy removal of shredded material.

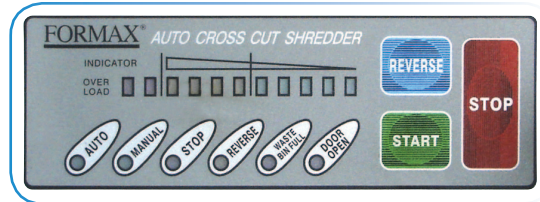

The EvenFlow™ Automatic Oiling System is another standard feature which lubricates the all-steel cutting blades, helping to keep the FD 8804SC in peak operating condition.

Local Dealer:

Powerful

The FD 8804SC Industrial Shredder is powerful enough to shred entire files, stacks of computer forms, tapes, CDs and ZIP disks with specially heat-treated solid-steel cutting blades and a powerful AC geared-motor. The FD 8804SC shreds up to 125 sheets in one pass at a speed of up to 50 feet per minute.

User friendly LED control panel with visual load indicator

User-Friendly Control Panel

The FD 8804SC offers unmatched automated features through its LED control panel. The easy-to-read Load Indicator assists operators in determining how close they are to the maximum shred capacity to avoid jams and provide optimal efficiency. Indicators also notify operators when the waste bin is full or the cabinet door is open. Operators can select from two modes of operation: Auto Start/Stop or Manual. Auto Start/Stop mode utilizes optical sensors which detect paper and start/stop operation automatically. Manual mode provides non-stop operation for shredding small sized paper or films.

Keyed On/Off switch

Easy to Maintain

Keeping the FD 8804SC in top condition is easy to do. With the Auto Cleaning function, clearing the blades of shredding debris is as simple as pressing Reverse on the control panel. Plus, the EvenFlow™ Automatic Oiling System lubricates the all-steel cutting blades, helping to keep the shredder in peak condition for optimal efficiency.

Large infeed deck with conveyor belt feed and safety bar for immediate shut down

Designed for Safety

Safety is an important component in the FD 8804SC design and engineering. A large 18"-wide safety bar is located in front of the conveyor belt system and will shut down the shredder instantly when pressed. A safety key and lock system is also included to ensure the shredder is operated only by authorized staff.

EvenFlow™ Oiling System Reservoir Bottle

Specifications: FD 8804SC

Cutting Style:	Strip-Cut
Shred Size:	1/2"
Sheet Capacity:	105 - 125*
Speed:	Up to 50 fpm
Feed Opening:	16"
Dimensions:	31" W x 53" L x 51" H
Bin Capacity:	49 gallons
Weight:	727 lbs. actual weight
Security Level:	Level 1
Power Supply:	3-Phase, 220V, 50/60 Hz NEMA L15-20P plug included NEMA L15-20R receptacle required

* Sheet capacity may vary due to variations in paper and power supply.
